

SOCIETY

Mr. Justice and Mrs. W. A. Johnston will give a dinner party tonight at their home, Elmwood place, for Mr. and Mrs. E. S. Jackson, who will leave for Washington, D. C. Covers will be laid for fourteen.

The past week has been unusually gay for Lent, on account of the presence of a number of out of town guests. Mrs. Addison Pickens of Kalamazoo, Mich., who is visiting Mrs. E. S. Quinlan, has been the guest of honor at a number of bridge parties. Mrs. A. L. Lundy of Chicago, who is the guest of her sister, Mrs. Willis Norton and Mrs. Harold Chase, has been entertained at various parties during the week, including a delightful party this afternoon at the home of Mrs. Norton, and Mrs. Dean Low of Pioche, Nevada, the guest of Mrs. M. A. Low, has been the inspiration of some parties since her arrival. These three visitors shared honors at a luncheon given Thursday by Mrs. George Crawford. Mrs. Pitkin will return home the latter part of next week; Mrs. Lundy will leave next Tuesday for Spokane, Wash., to visit her daughter, and Mrs. Low will return to Pioche, Nevada, about the first of April.

Miss Helen Brigham will give a thimble party next Saturday afternoon at her home on Western avenue for the girls of the Beta sorority.

The Nordica concert will be one of the interesting events of next week. The concert will be given Friday night at the Auditorium, and some of the society and musical people are planning to go in line parties. None of the great singers who come to Topeka appear to hold the interest of the audience as Nordica does. Whether it is altogether by her versatile powers as an artist, or partly by the friendliness of her attitude toward her audiences, it is hard to say. At all events the interest in her is perennial and unflagging and insures her a welcome.

Mr. Ralph Parr, the son of Mr. and Mrs. F. E. Parr, who is a student at the Annapolis Naval academy, will spend the summer on his ship cruising in the Baltic sea. The school closes in June, and the boys are on the sea during the summer, taking their vacations in September. Mr. Parr and his classmates will stop in England, Russia and Sweden during their trip through foreign waters. Mr. Parr will spend the month of September in Topeka with his parents.

Mrs. W. A. Johnston has been asked to attend the International Suffrage convention which meets this year in Stockholm, Sweden. Mrs. Johnston has been active for many years in suffrage work, taking it up at a time when the movement was unpopular among men and women alike, and her courage in working for the principle she believed in, has brought her into notice throughout the country as one of the pioneer suffrage workers. She has not accepted the call to attend the convention, and it is likely she will not go, but the invitation is at least a recognition of what she has done for the cause.

The annual banquet of the Jayhawkers club will be held at the Mission Tea room, Tuesday evening at 8 o'clock, March 28. A program has been arranged for the evening. Tickets may be obtained from Mrs. E. H. Mogeland, Mr. Otto S. Allen, Mr. W. R. Arthur or Mr. David Page.

Miss Elizabeth Barr, editor of Current Topics, has been asked to spend this summer in London, assisting the English suffragists. Miss Sylvia Pankhurst, who was in Topeka last week, talked with Miss Barr on western methods of suffrage work, and offered her a position as contributor to the English suffrage paper. Votes for Women. The work in London is thoroughly organized and they have need of more helpers. Miss Barr will spend the summer in England if she can find someone to take charge of her paper during her absence.

The Topeka Avenue club will have a banquet at the National hotel Friday evening, April 7.

An organ recital service will be given Sunday afternoon at 5 o'clock by Dean Horace Whitehouse in Central Congregational church. These services will continue every Sunday until Easter. This is an innovation in church services that will interest musical people, as it will give them an opportunity to hear the best organ music.

In the Bachelor club of Topeka, which was organized two years ago, eight of the fourteen members are engaged. Even the president, Mr. William Collinson, spends every other Sunday in Lincoln, Neb., visiting a girl. The real bachelors are those who have given up hope, and they are not the ones who belong to a bachelor club, not wishing to advertise their shortcomings.

The Wild Thyme Shakespeare club met with Mr. and Mrs. D. T. Grimes on College Hill last night. The fourth and fifth acts of "As You Like It" were read to the club by Mr. H. G. Larimer. EVENING CHAT

BY RUTH CAMERON.

"All that ought to be done can be done." —Kant.

"I ought. I can. I will." —Vincent.

Let me tell you a little story of a great change. The change is in a woman's personality and the story of it has impressed me anew with the tremendous power of the "I will" on character forming.

The young woman in question took the training for a convalescent nurse a couple of years ago.

When she made up her mind to do this, everybody prophesied failure, because she did not seem at all the kind of person for this sort of work. She was impatient and nervous, inclined to quick temper and had a rather loud, unpleasant voice.

The other day I heard some one speak of her, and asked how she had succeeded.

"Wonderfully," Miss Cameron, said Miss Lorraine. "And you never saw such an improvement in anyone in all your life. She visited me a few days last week and really, she's a changed woman."

"You know how nervous she used to be and how impatient if things didn't go just as she wanted them to? Well, now she is as well poised an self-controlled as can be."

"And her voice—why you'd scarcely know it was the same person speaking. It is so pleasant and well modulated. What has happened to her? Well, I complimented her on her improvement and asked her how she did it and she just said, 'Because I had to. I realized that when I took my first position. So I did.'"

You see this woman was a living example of Kant's and Vincent's doctrine and we who would have discouraged her were altogether in the wrong.

I wonder of there isn't a lesson in this for the mothers who refuse to put some responsibility upon, or require, some task from a child because "Margaret is so impatient with the younger children," or because "John is so apt to forget things when I send him on errands."

I happen to know two mothers, one of whom refused to send her daughter away to college because the girl was so helpless about taking care of herself and often showed such erratic judgment; the other who sent her daughter to college for just the same reason.

The first girl at thirty is the same erratic, inefficient person she was at eighteen.

In the other girl, the clarion call of "I must," brought out the "I can," and she

The Minerva club will have a "progressive" meeting next Monday. The first part of the meeting, with the literary program will be held at the home of Mrs. T. J. Kimbrough, 1028 Lincoln street, and after a short recess, the club will go to the home of Mrs. George Godfrey Moore, 1032 Lincoln street, for the musical program and refreshments.

WAS RECORD DAY.

Excavation on Panama Canal Is Under Rapid Headway.

Washington, March 25.—All records for daily excavation in the central division of the Panama canal were broken on Saturday, March 11, according to the canal record. On that day the amount of material excavated in that division aggregated 80,341 cubic yards. Fifty-one steam shovels and two orange peel cranes removed 70,484 cubic yards of this amount.

Excavation along the Chagres river between Gatun and Culebra cut is within 600,000 cubic yards of completion. It is hoped that by the middle of next month all work which the central division forces can do during the present year will have been completed.

USEFUL DISCOVERIES

Are Not Always Startling, Neither Do They Create the Most Talk.

It is not always the greatest, most startling discoveries of science that are most useful to the human race.

Comparatively few people were directly interested in Herschel's finding of the new planet Uranus, but many thousands have been benefited by Prof. Unna's experiments, which proved beyond a question that Dandruff and Baldness are the result of the inroads of a parasitic germ which invades the roots of the hair.

The discovery of the true cause of baldness made Newbro's Herpicide possible. Herpicide effectively kills this germ. Destroy the cause you remove the effect.

Sold by leading druggists. Send 16c in stamps for sample to The Herpicide Co., Detroit, Mich.
